MODERN EUROPEAN HISTORY

A GUIDE TO REFERENCE SOURCES

SCOPE

This guide is a bibliography of basic reference sources for the study of European history from the late Renaissance to the present. It is designed for the undergraduate student, and does not include specialized dictionaries and bibliographies relating to a narrow topic or individual country, e.g. Historical Dictionary of the French Revolution, 1789-1799, or Bibliographie annuelle de l'histoire de la France. Students requiring such specialized works should consult the on-line catalogue, MUSE, by subject or country, eg. FRANCE--HISTORY--BIBLIOGRAPHY or FRANCE--HISTORY--REVOLUTION, 1789-1799--DICTIONARIES. The Reference Department's other bibliographic guides that focus on the history of individual countries, will also be of use, notably:

British History
Canadian History
Classics
German History
Quebec Studies
Russian History
United States History

Sources devoted to the colonial history of various European countries can also be found in the Department's guides covering sources for area studies, e.g. Africa South of the Sahara. Other types of reference works, while not always having an explicity historical focus, may also prove useful for historical research. They include:

GUIDES TO ARCHIVAL MATERIAL, particularly those that cover documents which have been published or reproduced on microfilm, e.g., Guide to the Contents of the Public Record Office.
BIOGRAPHICAL WORKS, DIARIES AND MEMOIRS, can be found by author in MUSE; through bibliographies such as Primary Sources in European Diplomacy, 1914-1945: a Bibliography of Published Memoirs and Diaries and through biographical dictionaries either with national coverage eg. (Dictionary of National Biography) or with a specialized focus (e.g. Dictionnaire biographique du mouvement ouvrier français).

NEWSPAPER INDEXES, particularly those to the New York Times and the Times of London, which are international in scope and have been published for over a century.

PERSONAL BIBLIOGRAPHIES of writings by and about important figures e.g., Karl Marx and Friedrich Engels: An Analytical Bibliography.

STATISTICAL COMPENDIA, e.g., European Historical Statistics, 1750-1970

ARRANGEMENT

This bibliography is divided into two parts: one for factual reference works such as encyclopedias, chronologies and atlases, and one for bibliographic reference works, which list books, articles and other source materials. Locations and call numbers for each item are provided, usually for in the McLennan Reference collection; to find additional locations, consult the MUSE online catalogue under the entry used in this bibliography.

ONLINE SEARCHING

A number of bibliographies listed in this guide can be searched by computer, either online or on CD-ROM; the annotation indicates where this is the case. Enquiries concerning access to these databases can be made at the McLennan Reference Desk.

OTHER RESOURCES

Several specialized collections at McGill are of interest to the student of history. The Government Documents Department on the second floor of McLennan Library holds extensive collections of statistical data and official government publications such as parliamentary papers and debates, government reports and microtext reproductions of archival sources and statistical data; of particular interest are the holdings for Great Britain, the European Community and the United Nations. Because the majority of this material does not appear in MUSE, it is advisable to seek assistance there on the use of the collection. The Law Library holds comprehensive collections of statutes and regulations for a number of countries, including France and Britain.

Access to materials not held by McGill is usually possible through Interlibrary Loans, located in the Reference Department on the first floor of the McLennan Library building.

A reference librarian will be pleased to help you if you require any assistance in using the works listed in this guide or in locating the materials you wish to consult in the McGill Library collections. Please inquire at the Reference Desk.

This guide was compiled by Marc Richard, Reference Department, McLennan Library.
